What Can I Give My Dog For Pain Relief?

Are Pain Meds for Dogs Safe?

Knowing that a dog is in pain is upsetting. So it's an understandable reaction to want to do something — anything — to provide the dog pain relief as soon as possible.

However, as tempting as it may be to reach for an over-the-counter pain medications such as ibuprofen, aspirin, or acetaminophen and give it to the family dog, you must avoid them at all costs.
